# Cooling Mat

**60X90cm**

„The comfortable cooling mat“ is an ecological product used without electricity.

How to use:

Under high temperature conditions, please place the mat in a cool place when using. Your pets feel cool when the mat reaches room temperature.

At a room temperature over 30 °C, the cool feeling will gradually decline.

Keep the product away from sharp objects and tobacco products, as the inside substance may leak if the surface is broken or damaged. If the inside leaks, please stop using the product.

The inside substance is inedible. If it gets into eyes, flush with water right away, and consult a doctor.

How to maintain: Do not wash. Please use a wrung towel to wipe the surface after soaking in neutral detergent. Please keep surface clean to prevent bacteria from breeding due to surface condensation caused by cooling effect.

Avoid direct sunlight and keep in cool and dry place.

Keep out of reach of children.
